HUMMOCKS WATCHMAN EAGLES ROUND 5 ROUND UP

Last Saturday we took on Virginia, coming home with almost a clean sweep in the football and a mixed bag of results over at the netball, including a draw. The last time we headed to the Ram paddock, it was a very different day ... cold, raining, with no sunshine in sight! What we'd give to have a bit of that precipitation now! It was nice to hit the road after hosting three home games in the first four weeks of the season.

Well done to the A & B grades and senior colts on their wins, along with the A1, A2, U15, U13A, U11 and U9 netballers.

Some fast facts from Round 5:

- Our A grade side had some notable absences again this week, with Hugh Walker and Cody Redpath joining Archie Yelland, Rob Bull, Nathan Byrnes, Connor Moore & Mitch Jude, who remain on the "outs" list. But great to see Tait Nottle, Josh Appleby, Sean Light & Flynn Young back in the side, to take on the Rams yesterday

- It's not too often that three brothers line up in the same team, but that's exactly what happened when Jake & Dylan Martin's brother, Harry, joined our senior colts while visiting from Victoria. Harry played for us as a junior, so it was great to have him back in the Eagles colours for the day! He was a very handy contributor, being named first best and kicking three goals. Between the three brothers, they kicked eight out of the team's 12 goals! Great work lads!

- Currently our A1's and A grade, B grade and Senior colts are all sitting fourth on their respective ladders. Our A2s and U13As are having a great start to the season, both undefeated and are top and second respectively. Our U17s retained top spot on the ladder, despite going down to Virginia by just four goals yesterday, in their first loss.

What cannot be burned?

- Plastics or rubber
- Material or foam
- Lawn clippings or composted material
- General refuse
- Timbers containing plastics, glue or adhesives
- Timbers treated with Copper Chromium Arsenate (CCA) or other chemical preservatives
- Green or wet vegetation

Burning on domestic premises may occur if it is:

- Within a dwelling (eg slow combustion heaters)
- Used principally for the preparation of food
- Used for the purposes of reducing the hazard of bushfires and the person has either a permit or the written permission of the local Council
- Burning outside townships is legislated under the Country Fires Act.

What are the alternatives to burning?

The best ways of dealing with rubbish are to compost decomposable household and garden waste and have the rest taken away with kerbside collection or take it to one of Council's transfer stations.

A great deal of plant foliage and lawn clippings can be composted together with your kitchen scraps and returned to your garden.

A properly made compost heap is clean, free of smell and only requires about a two metre square area.

For further information about burning on domestic premises contact our Community Safety Officer Ph: 8862 0800

Burning on domestic premises within townships

What can I burn?

- Only dry paper, dry cardboard, dry wood and garden prunings which have been dried may be burned.

When can I burn?

- Burning in incinerators or fires in the open may only occur between 10.00am and 3.00pm from Monday to Saturday

What does burning in the open mean?

- Burning in the open includes any fire that is:
 - Attached to fuel burning equipment or in a container.
- Unless the equipment or container has a chimney through which the products of combustion are channelled.

What are the penalties?

The Local Nuisance and Litter Control Act 2016 provides penalties for a person causing a local nuisance (which includes nuisance smoke) ranging from an expiation fee of \$500.00 per offence, or up to \$10,000 if set before the courts.

Unlawful burning or activities during the Fire Danger Season is regulated by the Fire and Emergency Services Act 2005, which carries significant penalties.

How do I prevent a burning nuisance?

Despite compliance with the above, you must still ensure that unreasonable nuisance is not caused to neighbours, which includes nuisance from excessive smoke from burning in the open.

It is important to monitor and be mindful of the smoke being produced at all times.

Piles should not be left unattended and allowed to smoulder.

Fire danger season

The Fire Danger Season is set by the Country Fire Service (CFS).

This is a period during the year which carries a greater risk of the spread or outbreak of fire.

During the Fire Danger Season, a range of restrictions are placed on activities that are likely to increase the risk of fire outbreak. These include the use of certain tools, burning and barbecues.

The State of South Australia is divided into 15 districts. Our area falls within the Mid North fire ban district, which has a declared Fire Danger Season of 15 November to 30 April.

Fire Danger Season can often commence earlier in the year or extend to a later date due to dry conditions.

The changes to the season are determined by the CFS and are based on various factors including data and assessments undertaken by Council's Fire Prevention Officers.

To see the declared Fire Danger Season dates for all districts, please refer to the CFS website.

A PLUCKY CYCLIST

Port Wakefield -- On Sunday, whilst riding along the main road from here to Dublin on a spirited horse, Miss Dulcie Carstairs had a narrow escape. The animal took fright at a motor car and dashed into the dense mallee-bush on one side of the main road. Overhanging branches divested the young lady of her hat and some of her dress, besides tearing the reins from her hands. The horse then bolted down the road. A cyclist gave chase and by a great effort ranged alongside the bolting horse, and seizing the reins brought it to a standstill amidst the cheers of the young lady's friends, who had driven on ahead of her. Horse and cyclist were travelling at a tremendous pace, and a sudden swerve or plunge on the horse's part would have hurled the cyclist to almost certain death.

Seeing the lady safely in the charge of her friends, the cyclist mounted his machine and rode away. It has since been ascertained that the courageous young gentleman who so bravely risked his own life was the well-known cyclist, Mr. A. Heinjus, of Bowman's. Miss Carstairs escaped with a few bruises and scratches and a slight shock.
